

WE ARE RECRUITING

Bricklayer Apprenticeship

August 2025 start

This apprenticeship is suitable for anyone interested in a career as a bricklayer.

You will learn to lay bricks, blocks, and other building components in mortar to construct and repair walls, foundations, partitions, arches, and other structures.

You will also gain experience in refurbishing brickwork and masonry for restoration projects.

You will work on a variety of sites and projects, including commercial developments, new housing builds, extensions, and restorations.

Entry Requirements

To apply, you will need a minimum of GCSE Grade 4 or Functional Skills Level 2 in Maths and English.

You will need to submit a CV and covering letter to East Kent Brickwork.

Programme Details

As a Bricklaying Apprentice, you will be enrolled with East Kent Colleges Group.

Your schedule will include four days a week gaining hands-on experience on site with East Kent Brickwork and one day a week attending college for structured learning.

**For more information visit eastkentbrickwork.co.uk
or email hr@ekbrickwork.co.uk**

What does the apprenticeship lead to?

On successful completion, you will earn the Level 2 Bricklayer qualification.

How is the apprenticeship delivered?

You will attend scheduled workshop sessions at college during term time, complemented by regular workplace-based training.

You will also have routine progress reviews with your Line Manager. An Apprenticeship Trainer will provide on-site support through regular visits, offering guidance and monitoring your development.

What will I learn?

You will develop key knowledge, skills, and behaviours in the following areas:

Preparation of Materials: How to assess the quality and quantities of building materials, including the correct mix ratios for mortar and concrete.

Safe Working: The importance of health and safety legislation and codes of practice, applying safe working practices on site.

Working Area: Selecting appropriate tools, equipment, and materials for setting out and constructing new brickwork.

Masonry Structures: Expertise in erecting various masonry structures, including:

- Radial and battered brickwork
- Feature and reinforced brickwork
- Other specialised brickwork techniques.

Building Technology: An understanding of suitable materials and resources for setting out and laying concrete, drainage systems, and other substructure elements.

East Kent Brickwork is part of the WW Martin Group of Companies. Established in 1877 and based in Ramsgate, WW Martin Ltd has an excellent reputation in the construction industry.
