

WE ARE RECRUITING

Construction Groundworker Apprenticeship

August 2025 start

This apprenticeship course is for people who want to gain a vocational qualification in civil engineering, while gaining industry experience.

You will learn a host of skills including concreting, excavation activities, levelling and setting out, as well as the process involved in basic project management and key health and safety legislation.

You will gain comprehensive practical experience in the featured categories of training.

Entry Requirements

To apply, you must have a minimum of GCSE Grade 4 or Functional Skills Level 2 in Maths and English. You will need to submit a CV and covering letter to WWM Civils.

Programme Details

As a Construction Groundworker Apprentice, you will be enrolled with an external training provider. The course will be delivered through a mix of hands-on experience on site with WWM Civils and structured learning.

**For more information please visit wwmcivils.co.uk
or email hr@wwmcivils.co.uk**

What does the apprenticeship lead to?

On successful completion, you will earn a Level 2 Construction Groundworker qualification.

How is the apprenticeship delivered?

You will gain hands-on experience on site with WWM Civils, alongside training delivered by an external training provider.

You will have routine progress reviews with your Line Manager. An Apprenticeship Trainer will provide on-site support through regular visits, offering guidance and monitoring your development.

Skills required to become a groundworker

- Physical fitness, strength and stamina to cope with lifting and bending
- Ability to understand instructions and carry them out reliably and efficiently
- Knowledge of health and safety issues on a construction site
