ENVIRONMENTAL POLICY STATEMENT

WW Martin Ltd is committed to both the protection of the environment and evaluating the impact that its construction activities can have.

The Company shall comply with UK legislation as a minimum standard.

Company shall endeavour to follow best practice with due regard for its business needs, in line with the requirements of ISO 14001:2015 and the expectation of all interested parties. The objectives for the Company under this policy are to:

1. Increase the levels of environmental awareness across all sites.
2. Develop environmental management plans for sites with significant impacts.
3. Increase the variety and quantity of materials segregated for recycling.

The Senior Managers will be responsible for communicating and implementing this Policy and will ensure that:

- a. Controls are implemented to prevent, avoid, or minimise pollution in all forms wherever possible.
- b. The production of all types of waste is minimised. Maximise recycling, and dispose of other waste that cannot be avoided, in a responsible manner.
- c. Employees and contractors are encouraged to avoid environmental damage and to report breaches of this policy to the Environmental Representative.
- d. Resources and energy are used wisely.
- e. Training is provided as part of staff development taking into account responsibilities.
- f. WWM have formed an Environmental and Sustainability Committee to brainstorm and steer the company towards Zero Carbon
- g. Sustain IQ has been implemented to record environmental impacts and trends across all sites and HQ to enable WWM to review working methods and change procedures/processes if required. This will assist the company's objectives on its road towards zero carbon.

The Board of Directors are committed to continual improvement of the company's environmental management system by regularly reviewing its impacts, and on an annual basis, update this policy in line with the review findings.
